## SUMMARY

---

I am a Full stack developer and I am pursuing B.tech from LDC Institute of Technical Studies. I have great interest in learning new technologies. I am also learning programming on the internet .

## PROJECTS

---

### Spiritual Depo

This project was made during my internship program. Spiritual Depo is a web-based portal developed in HTML, CSS, Bootstrap, PHP and MySQL. It is a collection of sacred books. Here users can read descriptions about books and further can read. There are available different religions books that can help users in their spiritual journey.

### Static Web-page

Static web page was made in my graduation courses. This is a registration form connected with the backend. Tools for the static page are MySQL for database and Python as scripting language. In the front-end only HTML and CSS are used.
